

pro film black matte

Pro Film BLACK Matte is a high performance, self-adhesive, gloss black, clear-coated aliphatic polyurethane film designed to protect automotive paint, and other surfaces, from harmful effects of stone chips and abrasion. It has exceptional elongation properties for ease of application which allows for single piece installations. Pro Film BLACK Matte is a very low surface energy film designed to resist staining and offers superior environmental resistance and gloss retention. The clear coat employs special elastomeric polymers that allow scratches in the surface to “heal” over time, eliminating the need for frequent polishing to maintain a just installed appearance. Pro Film BLACK Matte is coated with ultra-clear high performance acrylic adhesive which has excellent adhesion on a broad range of surfaces, while resisting disturbances during installation. This high performance acrylic adhesive is formulated to resist delamination, will not damage paint or leave behind residue upon removal post installation.

NOMINAL THICKNESS W/O RELEASE LINER

200 um (7.90mil) +/- 5%

PROPERTIES

Gloss	>11 Gu
Self-Healing	Standard
Coating Layer Crack	>65 mm
Adhesion (30 min.)	>1000
Adhesion (24 hrs)	>1500
Hydrophobicity	Water-repellent
Weathering	No change 6500 W Xenon Arc Irradiance: 0.51 W/m² (340 nm), 65° C Humidity: 50%, R.H. 1000 hrs
